It starts with Scouts.

Tout commence
avec les Scouts.

Additional Resources for Accessibility Training

To assist with further learning on a specific topic, or to enhance the learning experience for an in-person course, the following resources can be utilized. Only Canadian or national resources are included; yet there are many provincial resources available on the web.

In-Person Course

CNIB EyeSimulator - Your Window Into Eye Disease - The EyeSimulator shows how common eye diseases like glaucoma, diabetic retinopathy, age-related macular degeneration and cataracts may affect vision.

See how eye disease can change your point of view with CNIB's EyeSimulator iPhone app - Use your phone's built in camera to see how your vision could be affected by AMD, diabetic retinopathy, cataracts, and glaucoma.
Download from iTunes

Further Learning

Government of Canada - Help on Web Accessibility Features

May 9 - Global Accessibility Awareness Day - a community-driven effort whose goal is to dedicate one day to raising the profile of and introducing the topic of digital (web, software, mobile app/device etc.) accessibility and people with different disabilities to the broadest audience possible.

Council of Canadians with Disabilities - a national human rights organization of people with disabilities working for an inclusive and accessible Canada.

CNIB Accessibility Resources and DeafBlind Services - resources for accessible web design and design standards, accessible meetings, events and places.

Canadian Hearing Society (CHS) Resources and DeafBlind Services
