Scouts Canada is proud to introduce the Outdoor Adventure Skills, an invitation for Scouts to try something new—to be outside more, testing themselves with progressive challenges while always staying within their capabilities to stay safe. In short, it’s about having life-changing experiences.

We have nine Outdoor Adventure Skills, each with its own unique skill sets.

### Anatomy of OUTDOOR ADVENTURE SKILLS

- **Paddling**
- **Aquatics**
- **Emergency**
- **Winter**
- **Camping**
- **Trail**
- **Vertical**
- **Scoutcraft**
- **Sailing**

Each skill has its own identifying colour!

Each Outdoor Adventure Skills badge shows prominently the activity in an outdoor setting.

Outlook Adventures Skills work in stages. A Scout can always be working on improving and getting to the next stage.

A youth who is two stages above another youth can mentor and sign off on the other’s competencies.

Howdy Partner!

Outdoor Adventure Skills have amazing partners to help support and bring credentials to our Scouting youth. Paddle Canada, PADI and Sail Canada are just the start.
