

# Bad Wolf

## BALOO'S CAVE Beliefs & Values

### The Adventure:

Living in a big jungle, Cub Scouts may run into some unpleasant people. Explore some scenarios you may face, or that some of your friends have faced before. How can you react to some tricky situations?

In Lairs, come up with some situations where Cubs might have an uncomfortable encounter with other kids or adults. Write down your scenarios on flash cards, then trade with another Lair.

Read the scenarios from the other Lair, and discuss what you would do to stay safe.

### Online Resources:

- Personal Safety
- Stay Safe!

### Safety Note:

- This adventure uses imaginary situations. There is no need for anyone to actually get hurt.
- Help each other to identify the scenarios which really are tricky and uncomfortable. Make sure that the scenarios are not based on wrong assumptions (racism, etc.).

### Plan:

- How will you brainstorm scenarios?
- How many scenario cards will you come up with?
- When and where will you share this adventure?
- How much time do you need?
- What materials should you have?

### Do:

- Brainstorm and compose scenarios.
- Swap with another Lair, and discuss how you can stay safe when presented with the other Lair's scenarios.

### Review:

- What do you know now that you did not know before?
- What scenarios did you find especially tricky?
- Were there any scenarios that the more than one Lair came up with? How did each Lair deal with the same situation?
- What would you do differently next time? How could you build on this experience?
