**Obstacle Course**

**The Adventure:**
As a Lair, construct an obstacle course for your Pack to race through. Use your imaginations!
If it’s winter, you can create a course outside with snow tunnels and sliding hills. If you’re at a Scout Camp in the summer, perhaps there’s a mud pit you can include.
Take turns running the course, and find out who’s the fastest Cub in your Pack!

**Online Resources:**
- How can you set up a great obstacle course outdoors?
- What could a course in your meeting hall look like?
- Try building an obstacle course outside in the snow like this one!

**Safety note:**
- What safety equipment will you need (helmets, goggles, life jackets and crash pads, etc.)?
- What will make the obstacle course safe for everyone to use?

**Plan:**
- What jobs need to be done to create the obstacle course?
- What jobs need to be done to run the obstacle course?
- What skills can each Cub offer? How will they be put to use?
- Who will gather the materials you need?
- When will the obstacle course be run? Where?
- When will you set up the obstacle course and how long will that take?
- How long will it take to run the obstacle course and how long will that take?
- What rules will you have? Will it be a competition or a personal challenge?

**Do:**
- Build your obstacle course
- Take turns racing the course
- Cheer on the other Cubs

**Review:**
- What do you know now that you did not know before?
- How did your Lair handle this Adventure as a team?
- What was the physical challenge to this Adventure?
- What was most challenging about building the course?
- What’s next? A new obstacle course? An obstacle course for the Beaver Scouts?
