

**Plan:**

- Reach out to your municipal government to see if there's a local outdoor rink that needs volunteers
- What jobs will be required to create the rink?
- How will you handle your ongoing responsibility for the rink?
- Agree on all the details and create your schedule.

**Do:**

- Maintain your rink over a winter
- Encourage local youth to take advantage of a great ice sheet!

**Review:**

- What do you know now that you did not know before?
- How did your Crew handle this activity?
- How did you feel before, during, and after this project?
- What would you do differently in the future?

**Safety note:**

- Take the proper precautions if you're using a snowblower to clear the ice sheet. Read the owner's manual and follow its instructions.
- How will you make the rink safe for users?

It starts with Scouts

# Flood a Rink

## Citizenship

**The Adventure:**

Organize your Crew's adoption of a local skating rink. Show some pride in your community by taking on the responsibility of flooding the ice and shoveling it after snowfalls. Let the younger Sections in your community know that they've got a great place to go skating, compliments of their Rover Crew!
