

Plan:

- What movie will you show and how will you show it? What equipment do you need?
- Movies that are more than fifty years old are in the public domain, and can be shown for free. You will need to get a licence to show a newer movie.
- When and where will you have your movie night? At your meeting hall? At your Scout Camp?
- What refreshments will you provide? Will you sell Scout Popcorn?

Do:

- Hold your movie night and show everyone a great time!

Review:

- What do you know now that you did not know before?
- How did sharing a movie with other Sections affect this adventure?
- What challenges did you encounter, and how did you overcome them?
- What would you do differently next time?

Safety Note:

How can you make sure that the movie you show is age-appropriate for younger members of your audience?

Movie Night

RED COAT TRAIL
Leadership

The Adventure:

There's something special about sharing a movie with others.

Organize a movie night as an opportunity to link with the other Sections in your Group. This can be a great way to break up the doldrums of winter – or, if you're showing the movie outdoors, it can be a great way to celebrate a fine summer evening.

Either way, a good movie is a great way for your entire Group to bond over a fun and relaxing shared experience!

It starts with Scouts.
