

**Plan:**

- What do members of your Patrol know about creating songs?
- Are you going to use another song's tune, or create your own?
- Will you use musical instruments or just your voices?
- How will you perform your song, live or video or recording?
- Will you teach it to the other Patrols?
- Would you like to challenge the other Patrols to create their Patrol song?

**Do:**

- Write your song
- Perform it for your Troop! Or create a video for your song, and show the Troop your video!

**Review:**

- What do you know now that you did not know before?
- Did you have fun? Why or why not?
- Were you part of a team? How did the team get along?

**Safety note:**

How will you prepare your voice for singing?

**Online Resources:**

**Music Maniac**

**The Adventure:**

Write a song about your Patrol! Let others know what your Patrol is all about, and show up to any event in style! This is a great way to inspire other Patrols, and to get everyone in the mood for a good time—because hey, your Patrol has arrived! It's time to share an adventure!

Be creative. You can use a tune from a song you already know and change the lyrics, or come up with something that's completely original. You can add hand clapping, foot stomping, whistling, drumming... The only limit is your Patrol's collective imagination!

S-06

It starts with Scouts.
