

Plan:

- Will you create your own Mock Parliament or take part in one that is hosted by another organization?
- How will you learn about the roles required for the Mock Parliament?
- Will you invite another Company to participate in the Mock Parliament?
- What materials do you need? Who will arrange for what is needed?
- What issue will be the main topic of debate? How will you prepare for the debate?
- What rules of order will be used?

Do:

- Research and plan for your side of the debate.
- Adventure Mock Parliament is underway!

Review:

- What do you know now that you did not know before?
- How did your Expedition Team handle this Adventure?
- What would you do differently next time?
- How did you feel before, during and after this Adventure?

It starts with Scouts.

Safety note:

If your Expedition Team is attending a Mock Parliament organized by another organization and your Scouters aren't coming with you, remember to submit written permission from your parents to your Scouters first.

Mock Parliament

Citizenship

**The Adventure:**

Do you feel that your provincial or federal government's values are the same as your own? How do you feel about your provincial or federal government's current position on funding for education, or on immigration, or on combatting climate change?

As an Expedition Team, organize a Mock Parliament to explore Canada's democratic process and to debate some complicated issues. You may invite Venturers from other Companies to take part, or explore opportunities for your Expedition Team to join a Mock Parliament that's already being organized by somebody else.
