

**Plan:**

- Who will obtain the information about Scouttrees from the Scouts Canada website and/or your Council?
- When and where will you plant your trees?
- What kind of trees will you plant? How many will you need?
- Where will you get your trees?
- How will you fundraise?

**Do:**

- Reforest a park or schoolyard in your neighbourhood.

**Review:**

- What do you know now that you did not know before?
- How did the participation of other Sections affect this adventure?
- What challenges did your Expedition Team encounter, and how did you overcome them?
- What would you do differently next time?

It starts with Scouts.

**Safety Note:**

Be aware of potential hazards at your planting site. Are there dangerous plants or animals you might encounter?

**Online Resources:**

# Citizenship

**The Adventure:**

Have you ever taken part in a Scouttrees planting event? For some Venturers, the answer to this question will be "Yes, of course—every year since I joined Scouting." Others, however, won't have heard of Scouttrees. Unfortunately, it's not something every Group takes part in. This means that many Scouting youth are missing out on a rewarding environmental service project, and an effective fundraiser.

Form an Expedition Team to organize a planting event for your Company, or even for your whole Group.
