

Plan:

- What donation will you require for a tag on a tree? Five dollars? Ten dollars?
- How will you make your tree tags? What materials will you use?
- How can you ensure your tags do no harm to the trees you plant?

Do:

- Make tree tags a part of your overall Scoutrees campaign!

Review:

- What do you know now that you did not know before?
- How did people respond to the idea of tree tags?
- What challenges did you encounter with this project, and how did you overcome them?
- What would you do differently next time?

Safety Note:

- How can you be prepared for insects when planting trees?
- What plants should you stay away from when planting trees?

Online Resources:

It starts with Scouts.

Tag-a-Tree

Citizenship

**The Adventure:**

Does your Company plan its own Scoutrees planting event? Perhaps your Company even plans a Scoutrees campaign for your whole Group!

For an inspired twist on fundraising in the name of Scoutrees, consider a “tag-a-tree” campaign. When neighbours, friends and family contribute a donation to your Scoutrees fundraising efforts, their donations can be celebrated with their name on a wooden star or heart hung on one of the trees you’ve planted.

It’s a small way to say thank you for the support your Scouting experience receives from others.
