

SC YLT

Introduce Your Fellow Superhero!

The Adventure:

Find a partner. (This is a great chance to meet someone new!) In your pair, one of you will be the speaker, and the other Beaver will be the listener. In character as superheroes, the speaker will tell the listener what their biggest strength is, and what their biggest weakness is. Remember to ask questions and make sure that you heard and understood what was shared. After, share with the group what you learned about your partner's skills.

Safety Note:

Respect your partner's privacy. Asking questions is part of being a good listener, but this doesn't mean that every question you ask has to be answered.

MALAK'S MAPLE

Leadership: Communication

Plan:

- How are you going to be a good listener?
- How are you going to clearly share your strengths and weaknesses?
- What are good behaviours for a listener?
- How can you ensure your partner understands you?

Do:

- Talk to your partner!

Review:

- What do you know now that you did not know before?
- What did you find out about your partner's superhero character?
- What could you do differently next time?
- What made it hard to listen?
- What made it hard to keep the other person listening?
- What can you do to communicate more clearly and to listen more carefully?
