The Adventure:
This is a review activity. Plan on trying this as a review for another adventure you will share soon. 
Sit in a circle. Hand out two Hershey’s Kisses™ (or a similar candy) to everyone taking part. One Kiss will be yours to keep. It stands for something that you are taking away from the adventure you just shared. This could be something that you learned or a moment you really enjoyed. Share what you are taking away from the adventure with the rest of the group.
Give your other Kiss away to somebody else in the group. Share what that person did on your adventure that you really appreciated. Perhaps the other person helped another Cub on the adventure. Or maybe that person just had a smile that kept everyone’s spirits up.
When you have received a Kiss from another Cub, put one hand behind your back as a sign to others that you should not receive any more Kisses. Everyone should end up with two Kisses in the end.

Safety Note:
What treat works best for everyone in the group? What allergies or special dietary needs to people have?

Plan:
- What adventure will you review with Kisses?
- When will you share this review?
- Where will you share this review?
- Who will lead this review?
- What candy will you use?

Do:
- Share a sweet review!

Review:
- What did you think of this review?
- How might you do this review another way?
