

# SC YLT

## North, South, East, West

### The Adventure:

Compass skills are important. Use your skill with a compass to lead a team through an obstacle course, following the directions provided at checkpoints along the way. The catch? The other Cubs are blindfolded! As a leader, you will have to give directions to the others to help them through the course.

### Safety Note:

- Watch out for tripping hazards.
- Be sure to have a spotter for each team, to help prevent falls.

### Online Resources:

## COUNCIL ROCK

Leadership: Becoming a Leader

### Plan:

- What kind of obstacle course will you make?
- Where will you make your course?
- What materials will you need for this adventure?
- How will you direct blindfolded Cubs? (They won't be able to follow compass directions.)
- How long will your course be?

### Do:

- Lead a team through your course, following the compass directions at each checkpoint.
- Take a turn as a blindfolded team member, following a leader's directions.

### Review:

- What do you know now that you did not know before?
- How are other Cubs successful?
- What makes a successful leader?
- How can you use these new skills in you Pack?
