The Adventure:
Think of something you have always wanted to do—it could be your next adventure! Think of an idea for an adventure and make it a reality. Whether big or small, your adventure needs to be carefully thought through and managed to make sure it’s fun. Make your idea come to life! This means solving problems before they even become problems.

Safety Note:
How are you going to make this adventure safe? Remember, when planning an adventure, you need to think about everyone.
