The Adventure:
Everyone has different skills and leadership qualities. However, not all leadership skills are best suited for every kind of adventure. Draw a leadership style out of a hat and lead a short adventure for 10–15 minutes in that style.

Plan:
- List different leadership styles and activities to which they can be applied.

Do:
- Each participant draws a leadership style out of a hat and must lead the adventure for 10–15 minutes in that style.

Review:
- What do you know now that you did not know before?
- How do different styles for leadership affect the group?

Online Resources:
Leadership Styles

Safety Note:
- How can you ensure the short adventures you will use for this activity are safe for your environment?
- What safety equipment do you need for the short adventures that may be part of this activity?
