## Make a Trail Card

## RED COAT TRAIL

### Leadership: Plan-Do-Review

#### The Adventure:

As a small team, come up with an adventure, and make your own Trail Card for it. Arrange your ideas and the details of the adventure on the table so you can present your Trail Card at the end.

#### Safety Note:

Be sure to include a relevant Safety Note on your Trail Card!

#### Online Resources:

Leave No Trace

#### Plan:

- What adventure do you want to go on?
- How will you involve everyone in the process of making the Trail Card?

#### Do:

- Work together to build a custom Trail Card for an adventure you could actually go on.

#### Review:

- What do you know now that you did not know before?
- How was it to actually apply what you've learned when you had to make stuff up?
- What was the hardest part of planning your adventure?
- How did everyone take part?
- What might you do differently next time?
