

Captain of Your Boat

RINGTAIL'S HOLLOW Environment & Outdoors

The Adventure:

Have you ever dreamed of being the captain of your own boat? Being a captain of a boat means you need to know how to pilot your ship. You need to know the rules on water.

Make an obstacle course with buoys and markers. Build your own cardboard waist boat and sail your obstacle course.

Online Resources:

- Markers
- Rules of the Road
- Horse Power Restrictions
- Rules of the Road (Video)
- Canadian Buoy system (Video)

Safety Note:

What safety gear do you need for your obstacle course?

Plan:

- What kind of boat are you going to build?
- What are the rules of the water?
- What can you use to make your obstacle course?
- What will the speed limit be on your course?
- What skills do you need to practise before doing this adventure?

Do:

- Run your obstacle course and learn the rules of the water!

Review:

- What do you know now that you did not know before?
- How did your team work together on this adventure?
- How did you feel before, during and after this adventure?
- What was your favourite part of this adventure?
- How would you build on this experience?
