

Captain of the High Seas

RED FLOWER CAMP Outdoors

The Adventure:

Do you know that there are “Rules of the Water” for when you are in a boat, just like there are “Rules of the Road” for when you are driving in a car? A lake or river is just like a road for boats. Buoys and markers are signs that you need to follow.

Create an obstacle course that can highlight waterway rules and laws.

Online Resources:

- Markers
- Rules of the Road
- Horse Power Restrictions
- Rules of the Road (Video)
- Canadian Buoy system (Video)

Safety Note:

What safety gear do you need for your obstacle course?

Plan:

- What are the rules of the water?
- What can you use to make your obstacle course?
- What will the speed limit be on your course?
- What skills do you need to practise before doing this adventure?

Do:

- Run your obstacle course and learn the rules of the water!

Review:

- What do you know now that you did not know before?
- How did your team work together on this adventure?
- How did you feel before, during and after this adventure?
- What was your favourite part of this adventure?
- How would you build on this experience?
