

Plan:

- What are the requirements for your PCOC?
- Where can you find out about the rules of the water?
- What activity can you use to practise the skills needed for your PCOC?

Do:

- Practise the skills needed to be successful in this adventure.
- Earn your PCOC!

Review:

- What do you know now that you did not know before?
- How did your team work together on this adventure?
- How did you feel before, during and after this adventure?
- What was your favourite part of this adventure?
- How can you build on this experience?

Safety Note:

What safety practices should you follow for any water-based adventure?

Online Resources:

Check out **the 360 interface** with all the resources to help you on this adventure.

PCOC

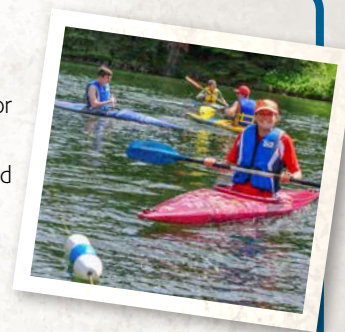

Environment & Outdoors

The Adventure:

Did you know that you are old enough to hold your Pleasure Craft Operator Card (PCOC)? There are "Rules of the Water" for when you are in a boat, just like there are "Rules of the Road" for when you are driving in a car. A lake or river is just like a road for boats to travel on, with buoys and markers providing the signals that you need to follow.

Form an Expedition Team and discover how to be safe and courteous boat operators. Be prepared for your adventure on the water and successfully obtain your PCOC.
