

Plan:

- Which activities will you lead?
- Where can you host this interactive session?
- What materials will you require?
- What skills will you practise to be prepared for your session?

Do:

- Host a day sharing your boating skills.

Review:

- What do you know now that you did not know before?
- How did your team work together on this adventure?
- How did you feel before, during and after this adventure?
- What was your favourite part of this adventure?
- How can you build on this experience?

Safety Note:

What safety practices should you always follow for water-based adventures?

Share Your Boating Know-How

Environment & Outdoors

The Adventure:

Canada has many magnificent waterways for boating. Share your expertise in boating safety at waterfronts in your community. What skills do you have that make you a good boater?

Create a day of interactive sessions for the public to explore and acquire the same skills you have.
