The Adventure:

Share some spooky Halloween fun with a game of vampire tag! Choose one Beaver to be Dracula—the first vampire. Dracula does not wear a hat, but the other Beavers do. He or she then tries to tag the other Beavers, while they try to avoid being tagged.

When Dracula touches another Beaver, that Beaver becomes a vampire. A vampire Beaver has to take off his or her hat to let the other Beavers know to run away, because the vampire Beavers also run around like Dracula, trying to tag the remaining Beavers. The last Beaver to become a vampire wins.
