

Plan:

- What will your Troop need for this adventure? How much will it cost?
- How will you keep your carving space safe and clean?
- Will each Scout have his or her own pumpkin, or will you share?
- How will you light up your jack-o'-lanterns?

Do:

- Carve your jack-o'-lantern! Be creative, and stay safe.

Review:

- What do you know now that you did not know before?
- What was your favourite part of this adventure?
- How did everyone stay safe on this adventure?
- Whose is your favourite jack-o'-lantern? What do you appreciate about it?
- If you were to share this adventure again, what would you do differently?

Safety Note:

- How can everyone stay safe while using sharp knives to carve pumpkins?
- Be prepared with a first aid kit.

Online Resources:

- Safety Permits
- Permit Pin—Knife
- Don't be on the Cutting Edge of Knife Safety!

Jack-o'-Lantern Carving

Cabot Trail Creative Expression

The Adventure:

Carving pumpkins is a fun way to be creative and to practise safely using a knife. Why not share this activity at one of your October meetings? Not only will you have fun carving your very own pumpkin, but you can bring your jack-o'-lantern home to make your place a little spookier for Halloween!

It starts with Scouts.
