### What You Will Discover

Run a virtual trivia game at a Section meeting.

### The Adventure

When you're running virtual Section meetings, you can't always run the same activities as when you meet in person. As a Section Leadership Team, create a trivia game for the members of your Section and run it through a virtual meeting. You can create a **Jeopardy-style** game, a game where people **submit their answers virtually**, or any other game that comes to mind!

It starts with Scouts.

## Plan

- How will you organize your game?
- What kinds of questions will you ask?
- How will your contestants score points?

## Do

**#ScoutsDoStuff:** Share your adventure with the world. You can even share a link to your trivia game so that others can play it with their Sections!

## Review

- What worked well in this activity? What did not work as well?
- If you were to run another trivia game, what would you change?
- If someone else were running their own trivia game, what tips would you share with them?

## Safety Note

What steps should you take to make sure that you're **safe while online**?

## Try this

### Keep it Simple

Use an online quiz making software, like **Trivia Maker**, **Kahoot** or **Buzzfeed**, and create a quiz to share with your Section. See who can get the highest score on their first try!

### Take it Further

Run a day-long tournament for your Section or other Sections you know. Have multiple rounds and a final round for the top scorers from previous rounds. Who will your ultimate trivia champion be?
